

2024 Allotment report

We have 3 garden allotments vacant. Some allotments are well maintained but I still have one or two that aren't. Otherwise, they are being well used (see photo). There has been a lot of changing plots (tenants downsizing) as well as new tenants.

The hedging has been cut over the winter period.

The new hedging (see photo) is getting established despite deer damage in places. A NCC officer came and looked at the hedging-counting plants that were alive or dead – there was no feedback so I assume all was well.

I still need to find someone to repair the Green lane gate.
